About Me

This is a paragraph about me. It explains my major at UCF, my career goals, and skills that I have. Even if I haven't worked anywhere that I would consider *in* the field that I'm majoring in, all work experience demonstrates that I can show up on time, communicate with supervisors, work with co-workers, etc. If you work in hospitality, you already work in a fast-paced environment! Retail? You've got great communication and customer service skills. Think about the things you do at work, and how those skills can be used in your dream job!

Note: this can be written in first person (I, me) or in third person (he/she/they). Third person is especially helpful if you use nonbinary pronouns or have a name that people often misgender. jkjkj
