[Reflective Blogs](reflective_blogs.md)

This is a test PDF upload. It doesn't like Markdown.

About Me

Let's see what happens when I paste hyperlinks straight from my live Github Pages site's header menu:

Home Manual Assessment Memo Chatbot Procedure Video Manual Reflective Blogs

and make them hyperlinks like I would in Word (highlight, add link)

Figure 1. Image of Dr. Johnson at a virtual conference.

Note: this can be written in first person (I, me) or in third person (he/she/they). Third person is especially helpful if you use nonbinary pronouns or have a name that people often misgender. jkjkj
